

The Right Connection®

# STEAM LANCE

## For Heating and Cleaning your Process Equipment

- **All Stainless Steel**
- **Ergonomically Designed**
- **Balanced & Easy to Handle**
- **Universal Threaded Connector**
- **Protective Perforated Casing**

The Dixon steam lance will help keep your process media moving when disrupted by ice or blockages in pipework.

Prevent work stoppages by quickly de-icing or steam cleaning process or instrument lines

The protective outer casing can be hand-held without harm when used with live steam.

Handles positioned at back and centre of lance for ease of handling.

Length: 1.4 metre - Connection: 45° Elbow with 3/4 inch Female NPT thread.

**Dixon BOSS Steam Couplings & Clamps**  
*'the original and still the best!'*  
**Accept No Imitations**
